News Release

Lexston Mining Corporation Closed the Private Placement

Vancouver, British Columbia, February 18, 2025. Lexston Mining Corporation (the “**Company**” or “**Lexston**”) (CSE: LEXT) (OTC: LEXTF) (Frankfurt: W5G) is pleased to announce that further to its news release dated February 4, 2025, the Company closed a non-brokered private placement and raised gross proceeds of \$196,000 through the issuance of 2,450,000 units at a price of \$0.08 per unit (the “**Private Placement**”). Each unit consists of one common share and one common share purchase warrant. Each common share purchase warrant entitles the holder to purchase one common share at a price of \$0.10 until February 18, 2030.

The Company plans to use the proceeds from the Private Placement for general working capital. No finder’s fees were paid in relation to the Private Placement.

All securities issued pursuant to the Private Placement are subject to a four-month statutory hold period until June 19, 2025.

About Lexston Mining Corporation

The Company is a Canadian mineral exploration company, focused on the acquisition and development of mineral projects, with the objective to enhance value to all its stakeholders. The Company has mineral exploration projects in British Columbia and Nunavut, Canada.

The Company (OTCQB: LEXTF) trades on the OTCQB Venture Market for early stage and developing U.S. and international companies. Companies are current in their reporting and undergo an annual verification and management certification process. Investors can find RealTime quotes and market information for the company on www.otcmarkets.com.

Forward-looking statements

This news release contains "forward-looking information" under applicable Canadian securities legislation. Such forward-looking information reflects management's current beliefs and are based on a number of estimates and/or assumptions made by and information currently available to the Company that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors that may cause the actual results and future events to differ materially from those expressed or implied by such forward-looking information. Readers are cautioned that such forward-looking information are neither promises nor guarantees and are subject to known and unknown risks and uncertainties including, but not limited to, general business, economic, competitive, political and social uncertainties, uncertain and volatile equity and capital markets, lack of available capital, actual results of exploration activities, environmental risks, future prices of base and other metals, operating risks, accidents, labour issues, objections by aboriginal people, delays in obtaining governmental approvals and permits, obtaining consents of aboriginal people and other risks in the mining industry.

These statements include but are not limited to obtaining financing, exploration permits, exploration of properties for minerals, liquidity of the common shares of the Company and future financings of the Company. These statements reflect management's current estimates, beliefs, intentions, and expectations. They are not guarantees of future performance. The Company cautions that all forward-looking statements are inherently uncertain and that actual performance may be affected by many material factors, many of which are beyond the Company's control. Such factors include, among other things: risks and uncertainties relating to the acquisition of new properties, liquidity of the common shares of the Company, financings, the market valuing the Company in a manner not anticipated by management of the Company. Accordingly, actual and future events, conditions and results may differ materially from the estimates, beliefs, intentions and expectations expressed or implied in the forward-looking information. Except as required under applicable securities legislation, the Company does not undertake to publicly update or revise forward-looking information.

The Company is presently an exploration stage company. Exploration is highly speculative in nature, involves many risks, requires substantial expenditures, and may not result in the discovery of mineral deposits that can be mined profitably. Furthermore, the Company currently has no reserves on its properties. As a result, there can be no assurance that such forward-looking statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements.
